

Animal Medical Centre

Our Cat Hotel – Terms of Boarding

- Admission to the cattery must be no later than 4pm on the day of arrival.
- All cats will be examined for fleas on admission. If not recently treated, suitable medication will be administered and treatment will be given at your expense.
- If your cat has been treated for fleas at home prior to entering the cattery, the following flea preparations will be accepted: Frontline, Advocate, Prinovox, Advantage, Effipro, Capstar, or Stronghold.
- For Worms the following products will be accepted: Milbemax or Drontal.
- All cats must be fully vaccinated against cat flu and feline enteritis prior to admission. This means each cat must have a valid vaccine certificate signed by a vet. Primary vaccines must have been administered as per the vaccine guidelines, 3-4 weeks apart and both vaccines must be the same brand. Booster vaccinations must be administered at 12 months following the initial primary vaccines and then annually, being administered no later than 15 months following prior booster vaccine.
- Cats that are not correctly vaccinated will not be admitted to our cattery
- For hygiene reasons, all bowls, litter trays and bedding are supplied by Animal Medical Centre Cattery. Bedding can be supplied by us or the owner. Animal Medical Centre takes no responsibility for loss or damage to any bedding, toys etc that are supplied by the owner of the animal.
- All male cats over the age of 6 months must be castrated; this is to reduce stress levels among other boarding cats.
- If your cat is not under veterinary care at Animal Medical Centre and is registered at another veterinary practice, please supply details of your current veterinary practice at time of admission.

- Medication will be administered at a fee. Diabetic cats requiring insulin will be charged daily injection fees.
- Medical conditions requiring veterinary nursing care and time will be charged at extra cost
- If your cat becomes unwell whilst staying in the cattery, we will contact yourself or your agent by telephone. Should it prove necessary cats may be removed from the cattery and admitted to the cat ward and as such any medical boarding fees and veterinary treatment will be given at your expense.
- Boarding fees are inclusive (ie. a charge will be made for the day of arrival and if departure time is after 12noon a further charge will be made.)
- Boarding fees on a bank holiday will be double the fees for a regular day.
- Cats will not be admitted or discharged on bank holidays or Sundays
- Cats are boarding at the sole risk of the owner and whilst every care will be taken, the management shall not be liable for loss, injury or death or any problems such as stress or ill health arising from their visit.
- All outstanding fees are to be paid at the time of collection.
- Without any prejudice to any lien confirmed by law, management shall have a lien for any animal in their possession boarded by owner to secure all monies owing by the client under this agreement.
